

NAME

Alan G. Cheng, M.D.
Stanford University School of Medicine
Department of Otolaryngology-Head and Neck Surgery
801 Welch Road, Palo Alto 94304

Title:

Professor in Otolaryngology
Director, Clinician Scientist Training Program
Chief, Division of Pediatric Otolaryngology

Education/Training:

Johns Hopkins University, Baltimore, MD	B.S.	August 1991 -May 1995
Albert Einstein College of Medicine, Bronx, NY	M.D.	August 1995 - June 1999
<i>Internship</i> , Department of Surgery, University of Washington, Seattle, WA		June 1999 - June 2000
<i>NIH T32 Postdoctoral Research Fellowship</i> , Department of Otolaryngology– HNS, University of Washington, Seattle, WA		July 2000 -June 2002
<i>Residency</i> , Department of Otolaryngology–HNS, University of Washington, Seattle, WA		July 2002-June 2006
<i>Fellowship</i> , Department of Otolaryngology and Communication Disorders, Children’s Hospital Boston, Boston, MA		July 2006-June 2007

Prior service to ARO:

Program Committee 2013-2016
Publication Committee 2016-2019
Long Range Planning Committee 2018-2021
Co-Chair, Clinician Scientist Committee 2023-present

Research Interests: Cochlear hair cell development and regeneration, mouse and human vestibular hair cell regeneration, aminoglycoside ototoxicity, congenital hearing loss

Clinical Interests: Congenital hearing loss, cochlear implantation, cholesteatoma, otitis media, conductive hearing loss

Personal interests: Family, racquetball, squash, golf, snowboarding, wine tasting, karaoke, traveling

Statement of Goals:

ARO has played a pivotal role in my journey as a scientist and clinician. Serving this community as president would be an incredible privilege. My primary goal is to expand and bring together our diverse, international community of researchers and clinicians. To achieve this, I am committed to listening to the valuable inputs of our members and committees. Working together with the council, I will secure resources to enhance education and mentoring, facilitate networking opportunities, and promote knowledge sharing. My vision is for ARO to continue to thrive as a global hub for researchers and clinicians.
